FMB battery

Example:

BatState: 1 FSMState: ACTIVE ChargerIC: 0FF ExtV: 11796 BatV: 3942 BatI: 0

Response details	Description	Description
BatState	Battery: 0 - disconnected 1 - connected	BatState: 1
FSMState	Current battery state	FSMState: ACTIVE
ChargerIC	Battery charging status	ChargerIC: OFF
ExtV	External voltage	ExtV: 11796
BatV	Battery voltage	BatV: 3942
BatI	Battery charging current	BatI: 0

Note: If you want to know device battery level %, send SMS/GPRS command: readio 113

Example: Device has battery level 100 %

Sending command: readio 113

Answer sent from the device: IO ID:113 Value:100

Value: 100 means that battery level is 100%!

Command for Personal Trackers

ChargerType: INTERNAL BatStatus: CHARGER_IN

ChargerIC: CHARGING ExtV: 4712 BatV: 3607 BatI: 403

BatLvl: 29

Example of battery SMS command response

After issuing 'battery' request via SMS, we get the following result:

Example:

ChargerType: INTERNAL BatStatus: CHARGER_IN ChargerIC: CHARGING ExtV: 4712

BatV: 3607 BatI: 403 BatLvl: 29

Response details	Description	
ChargerType:	INTERNAL	
BatStatus	Current battery state	
ChargerIC	Battery charging status	
ExtV	External voltage	

BatV	Batter	y voltage in mV
BatI	Battery charging current in mA	
BatLvl	Battery level in percents	
BatStatus details		Note
PRESENT		Battery is present, notify voltage
CHARGER_IN		Charger plugged in, charging
CHARGER_OUT		Charger was removed
OVERVOLPROTECT	Γ	Abnormal behaviour, charging error
OVERBATTEMP		Battery's temperature over 45C when device is on charge and 58C when device is in discharge mode
LOWBATTEMP		Battery's temperature under -15C
OVERCHARGECURRENT		Abnormal behaviour, charging error
CHARGE_COMPLETE		Battery fully charged
INVALID_BATTERY	•	Abnormal behaviour, battery error
INVALID_CHARGER		Abnormal behaviour, charging error
CHARGING_TIMEO	UT	Abnormal behaviour, charging error
LOWCHARGECURR	ENT	Abnormal behaviour, charging error
CHARGE_BAD_CON	TACT	Abnormal behaviour, charging error
BATTERY_BAD_CONTACT		Abnormal behaviour, battery error
USB_CHARGER_IN		Charger plugged in, charging
USB_CHARGER_OU	T	Charger was removed
USB_NO_CHARGER	L_IN	Charger plugged in, not charging
USB_NO_CHARGER	LOUT	Charger was removed
BATTERY_IN		Battery is attached
BATTERY_OUT		Battery is removed
