FMB setparam

Example:

`setparam 2001:wap` will change configured APN name.

Answer:

New value `2001:wap`

or if multiple parameters needed:

Example:

`setparam 2001:wap2;2002:user;2003:pass` will change configured APN name, APN username and APN password. SMS command of limited to 160 characters.

Answer:

New value `2001:wap2;2002:user;2003:pass`
