

DECLARATION OF IMEI SECURITY

We, **JSC Teltonika, Saltoniškių st. 9b-1, LT-08105, Vilnius, Lithuania**, hereby declare under sole responsibility, that manufacturer of the below described GSM module, confirms that the proper security measures to protect the IMEI of the below-stated equipment have already been set. This was achieved by adding a secret code to a permanent memory. All devices using below-stated GSM module have security codes, the equipment is inoperative when incorrect use of code occurred. Any attempts to alter the IMEI shall be unsuccessful.

The following steps to protect the security of the IMEI have been taken:

1) Programming Security

Encryption and/or secure password techniques have been adopted to prevent unauthorized reprogramming of IMEI.

2) Mechanical Security

The modem has been designed in such way to not allow an unauthorized person to change the components in which IMEI is stored.

3) Availability of the program

Know how on the programmed contentment shall be restricted to any manufacturer's personnel on a need to know basis.
