This certificate is issued under the following additional and non-exhaustive list of provisions of the Radio Equipment Regulations 2017 (SI 2017/1206) of the Statutory Instruments of the UK:

- 1. **Regulation 7**: Before placing radio equipment on the market, a manufacturer must ensure that it has been designed and manufactured in accordance with the essential requirements
- 2. **Regulation 8:** Before placing radio equipment on the market, a manufacturer must ensure it has been constructed so that the radio equipment can be operated without causing an infringement of the applicable requirements on the use of the radio spectrum.
- 3. **Regulation 11:** A manufacturer must, for a period of 10 years beginning on the day on which the radio equipment is placed on the market, keep and, upon request, make available to an enforcing authority the following in relation to radio equipment—

  (a) a copy of the declaration of conformity, and

  (b) the technical documentation.

# 4. Regulation 15:

- (1) A manufacturer who considers, or has reason to believe, that radio equipment which they have placed on the market is not in conformity with Part 2, if appropriate, must immediately take the corrective measures necessary to—
- (a) bring the radio equipment into conformity,
- (b) withdraw the radio equipment, or
- (c) recall the radio equipment.
- (2) Where the radio equipment presents a risk, the manufacturer must immediately inform the market surveillance authority, of the risk, giving details of—
- (a) the respect in which the radio equipment is considered not to be in conformity with Part 2, and
- (b) any corrective measures taken and the results of those measures.

# 5. Regulation 12:

- (1) Before placing radio equipment on the market, a manufacturer must ensure that the radio equipment bears—
- (a) a type, batch or serial number, or
- (b) another element which allows the radio equipment to be identified.
- (2) Before placing radio equipment on the market, a manufacturer must indicate on the radio equipment—
- (a) the name, registered trade name or registered trade mark of the manufacturer,
- (b) a postal address at which the manufacturer can be contacted.
- (3) The information specified in paragraph (2) must be in a language which can be easily understood by end-users and the enforcing authority.
- (4) Where the size or nature of the radio equipment prohibits a manufacturer from complying with the requirement in paragraph (1) or paragraph (2), the manufacturer must provide the required information either on the radio equipment's packaging or in a document which accompanies the radio equipment.
- (5) The manufacturer's postal address must indicate a single point at which the manufacturer can be contacted.

# 6. Regulation 23:

- (1) Before placing radio equipment on the market, an importer must indicate on the radio equipment—
- (a) the name, registered trade name or registered trade mark of the importer, and
- (b) a postal address at which the importer can be contacted.
- (2) The information specified in paragraph (1) must be in a language which can be easily understood by end-users and the enforcement authority.
- (3) Paragraph (1) does not apply where—
- (a) either-
- (i) it is not possible to set out the information referred to in paragraph (1) on the radio equipment, or
- (ii) the importer has imported the radio equipment from an EEA state and places it on the market within the period of 18 months beginning with exit day, and
- (b) before placing the radio equipment on the market, the importer sets out the information referred to in paragraph (1)-
- (i) on the packaging; or
- (ii) in a document accompanying the safety component.
