An example of marking is provided below. It must be affixed to an easily noticeable section of the specified radio or terminal equipment. This marking includes:

- Giteki mark;
- A square containing the letter R for radio equipment or T for terminal equipment;
- A unique certificate number that incorporates the ID number of the certifying CAB;

- The format of the unique number and CAB ID section differs for radio and terminal equipment.

For radio equipment the format is:

YY = Year

NNNN = CAB serial number

Note: Hyphen is part of the marking requirement

Additional marking for 5GHz products:

For products using frequencies within 5.15-5.35 GHz, please print the following warning text on your product label.

5.2 GHz 帯域は屋内での使用のみに制限されています
 (5.2 GHz 高電力基地局または中継局と通信する場合を除く)
 電波法により 5.3 GHz 帯は屋内使用に限ります

Translation: 5.2 GHz band is restricted to indoor use only
 (Except when communicating with 5.2GHz high power base stations or relay stations)
 5.3 GHz band is restricted to indoor use due to the Radio Law

Restrictions apply to outdoor products using frequencies within 5.15-5.25 GHz, including:

- For access points and relays, registration in advance is required;
