FMC225 is WATER and DUST resistant real-time tracking terminal with GNSS and LTE/GSM connectivity and backup battery. FMC225 features RS485/RS232 data interface, which gives ability to connect various third-party external devices. It is perfectly suitable for applications where location acquirement of remote objects is needed: fleet management, car rental companies, taxi companies, public transport, logistics companies, personal cars and so on. Because of IP67 casing, device is totally protected from dust and remains safe during the short periods of immersion in water up to 1m depth. As a result, FMC225 can be used in agriculture, construction and mining or any other fleet where harsh tracking conditions exists.
