FOTA Web API changelog

Here is information on the latest changes to the FOTA Web API

2023-04-05

Removed device properties:

- `status_id`
- `status_name`

These properties are replaced by `activity_status` and `task_queue` that were introduced on 2022-12-20.

2022-12-20

Added new device properties:

- `activity_status`
- `task_queue`

2023-06-30

Removed company statistics from GET /companies/<ID> response:

- device_count
- user_count
- file_count
- group_count
- task_count
- company_count

This data can still be accessed via dedicated endpoint GET /companies/stats?company_id=<ID>

will be updated as new API changes emerge
