## FMB122 LED status

 $\underline{\text{Main Page}} > \underline{\text{Advanced Trackers}} > \underline{\text{FMB122}} > \underline{\text{FMB122 Manual}} > \underline{\text{FMB122 LED status}}$ 

This section is an explanation of LED indications on an FMB122 device.

## **Navigation LED Indications**

| Behaviour                | Meaning   |
|--------------------------|---|
| Permanently switched on  | GNSS signal is not received   |
| Blinking every second    | Normal mode, GNSS is working  |
| Off                      | GNSS is turned off because:<br>Device is not working<br>or<br>Device is in sleep mode |
| Blinking fast constantly | Device firmware is being flashed  |

## **Status LED Indications**

| Behaviour                      | Meaning   |
|--------------------------------|---|
| Blinking every second          | Normal mode                                     |
| Blinking every two seconds     | Sleep mode                                      |
| Blinking fast for a short time | Modem activity                                  |
| Off                            | Device is not working or Device is in boot mode |
