[Main Page](#) > [Advanced Trackers](#) > [FMB122](#) > **FMB122 Product Change Notifications**

**Product change notifications (PCN)** is the way of informing customers of upcoming changes related to Teltonika products. This includes outward appearance adjustments, hardware improvements, firmware changes, changes to package contents, etc. This page stores information regarding changes to the FMB122 tracking device. Below you will find a list of both upcoming and already implemented changes sorted from newest to oldest (top to bottom).

## 2024.08.07: Base firmware update

We would like to inform you about the base firmware update for FMB122 starting from June, 2024. New production firmware version will be **03.29.00.Rev.21**

### Change description

Change type	Firmware update
Detailed description	Key improvements from last production firmware are listed in errata: <a href="#">FMB122 firmware errata</a>
Change reasons	FMB122 base firmware version update
Product release date	2024 August
<b>Affected products</b>	
Model	Affected order codes
	Order code changes

FMB122	Order codes with base Firmware	New firmware version
<b>Change impact</b>		
Risk assessment	Client's special firmware versions or order codes with special firmware will not be updated to latest base firmware automatically. During the transition period clients might receive devices with previous Firmware version used in manufacture.	
Suggested implementation plan	If you are using special firmware version and would like an upgrade to new features of latest base firmware, please contact your Teltonika sales manager.	

## 2024.05.13: Base firmware update

We would like to inform you about the base firmware update for FMB122 starting from June, 2024. New production firmware version will be **03.29.00.Rev.18**

<b>Change description</b>		
Change type	Firmware update	
Detailed description	Key improvements from last production firmware are listed in errata: <a href="#">FMB122 firmware errata</a>	
Change reasons	FMB122 base firmware version update	
Product release date	2024 June	
<b>Affected products</b>		
Model	Affected order codes	Order code changes
FMB122	Order codes with base Firmware	New firmware version
<b>Change impact</b>		
Risk assessment	Client's special firmware versions or order codes with special firmware will not be updated to latest base firmware automatically. During the transition period clients might receive devices with previous Firmware version used in manufacture.	
Suggested implementation plan	If you are using special firmware version and would like an upgrade to new features of latest base firmware, please contact your Teltonika sales manager.	

## 2023.03.01: GNSS antenna changes

We would like to update you regarding the changes in GNSS antenna for FMB122, which will now take effect in March 2023. From March 2023 to August 2023, the latest version of GNSS antennas will be provided, and after August 2023, the older version of antennas will be supplied.

<b>Change description</b>		
Change type	Internal	
Detailed description	Mechanical part changes	
	Old version:	New version:
	☒ Dimensions - 46x44x13 mm	☒ Dimensions - 45.2x35.8x15.1 mm
	Center frequency - 1575.42 MHz, 1602 MHz Bandwidth - 35 MHz	Center frequency - 1575.42 MHz, 1602 MHz Bandwidth - 10 MHz
	VSWR on bandwidth - <1.9	VSWR on bandwidth - <1.5
	GAIN - 3 dB	GAIN - 2 dB
	LNA minimum gain - 26.5 dB	LNA minimum gain - 26 dB
	LNA maximum gain - 29.5 dB	LNA maximum gain - 30 dB
	Consumption - 9 mA	Consumption - 11 mA
Change reasons	Reaction to antenna market volatility.	
Product release date	March, 2023	
<b>Affected products</b>		
Model	Affected order codes	Order code changes
FMB122	FMB122*****order codes	No changes
<b>Change impact</b>		
Risk assessment	Up until August 2023, the latest model of GNSS antennas will be provided, after which point the older version of antennas will be supplied.	
Suggested implementation plan	No implementation plan needed.	

## 2023.02.02: Changes in side frame for the battery placement

We would like to inform you that the side frame for the battery placement is included, helping to determine the exact location of the battery. Also, minor design changes are made to improve both case production and case assembly. These changes affect FMB110, FMB120, FMB122, FMB125, FMC125, FMM125, FMB130, FMC130, FMM130, FMB140, FMB150, FMC150, and FMM150 devices. The updates in the factory are being implemented in February, 2023.

### Change description

Change type	Internal	
Detailed description	The side frame for the battery placement is included, helping to determine the exact location of the battery. Also, minor design changes are made to improve both case production and case assembly. These changes affect FMB110, FMB120, FMB122, FMB125, FMC125, FMM125, FMB130, FMC130, FMM130, FMB140, FMB150, FMC150, and FMM150 devices.	
	Old Version:	New Version:
		
Change reasons	The battery placement is improved with a side frame, helping to determine the exact location of the battery. Minor design changes are made for case production and case assembly. These changes affect FMB110, FMB120, FMB122, FMB125, FMC125, FMM125, FMB130, FMC130, FMM130, FMB140, FMB150, FMC150, and FMM150 devices.	
Product release date	February, 2023	
<b>Affected products</b>		
Model	Affected order codes	Order code changes
FMB110, FMB120, FMB122, FMB125, FMC125, FMM125, FMB130, FMC130, FMM130, FMB140, FMB150, FMC150, FMM150	FMB110, FMB120, FMB122, FMB125, FMC125, FMM125, FMB130, FMC130, FMM130, FMB140, FMB150, FMC150, FMM150 all codes	Updated the battery placement with the side frame as well as minor design changes for case production and assembly
<b>Change impact</b>		
Risk assessment	During the transition period clients might receive devices with old case design used in manufacture	
Suggested implementation plan	Due to changes in device appearance we strongly recommend to contact your customs agent with our change log information, to avoid any unexpected delays in customs clearance process.	
<b>Acknowledgement of PCN receipt</b>		
If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has tactically accepted and can implement the change as indicated above.		

## 2022.09.12: Base firmware update

We would like to inform you about the base firmware update for FMB122 starting from October 1st, 2022. New production firmware version will be 03.27.13.Rev.03

<b>Change description</b>		
Change type	Firmware update	
Detailed description	Key improvements from last production firmware are listed in errata: <a href="https://wiki.teltonika-gps.com/view/FMB122_firmware_errata">https://wiki.teltonika-gps.com/view/FMB122_firmware_errata</a>	
	Old version:	New version:
	FMB122 03.27.07.Rev.00	FMB122 03.27.13.Rev.03
Change reasons	FMB122 base firmware version update	
Product release date	2022 October	
<b>Affected products</b>		
Model	Affected order codes	Order code changes
FMB122	FMB122***** order codes with base Firmware	Update firmware
<b>Change impact</b>		
Risk assessment	Client's special firmware versions or order codes with special firmware will not be updated to latest base firmware automatically. During the transition period clients might receive devices with previous Firmware version used in manufacture.	
Suggested implementation plan	If you are using special firmware version and would like an upgrade to new features of latest base firmware, please contact your Teltonika sales manager.	

## 2021.08.13: Base firmware update

We would like to inform you about the base firmware update for FMB122 starting from August 13th, 2021. New production firmware version will be 03.27.07.Rev.00

<b>Change description</b>		
Change type	Firmware update	
Detailed description	Key improvements from last production firmware are listed in errata: <a href="https://wiki.teltonika-gps.com/view/FMB122_firmware_errata">https://wiki.teltonika-gps.com/view/FMB122_firmware_errata</a>	
	Old version:	New version:
	FMB122 03.25.18.Rev.08	FMB122 03.27.07.Rev.00
Change reasons	FMB122 base firmware version update	
Product release date	2021 August	
<b>Affected products</b>		
Model	Affected order codes	Order code changes
FMB122	FMB122***** order codes with base Firmware	Update firmware
<b>Change impact</b>		
Risk assessment	Client's special firmware versions or order codes with special firmware will not be updated to latest base firmware automatically. During the transition period clients might receive devices with previous Firmware version used in manufacture.	
Suggested implementation plan	If you are using special firmware version and would like an upgrade to new features of latest base firmware, please contact your Teltonika sales manager.	

## 2021.05.17: Base firmware update

We would like to inform you about the base firmware update for FMB122 starting from May 17th, 2021. New production firmware version will be **03.25.18.Rev.08**.

### Change description

Change type	Firmware update	
Detailed description	Key improvements from last production firmware are listed in errata: <a href="https://wiki.teltonika-gps.com/view/FMB122_firmware_errata">https://wiki.teltonika-gps.com/view/FMB122_firmware_errata</a>	
Change reasons	FMB122 base firmware version update	
Product release date	2021 May.	

### Affected products

Model	Affected order codes	Order code changes
FMB122	FMB122***** order codes with base Firmware	Update firmware

### Change impact

Risk assessment	Client's special firmware versions or order codes with special firmware will not be updated to latest base firmware automatically	
Suggested implementation plan	If you are using special firmware version and would like an upgrade to new features of latest base firmware, please contact your Teltonika sales manager.	

## 2021.02.08: Bluetooth® Improvement

We would like to inform you, that Bluetooth® performance for the FMB122 device will be updated in the factory from March 2021.

### Change description

Change type	Internal	
Detailed description	Bluetooth® antennas are improved for FMB110, FMB120, FMB122, and FMB125 devices ensuring better signal strength. The efficiency of Bluetooth® antennas is considerably increased when receiving or transferring data.	
Change reasons	Following the changes, the capabilities of our devices will be greatly improved to provide better performance when Bluetooth® signal is obstructed or longer distance coverage is required	
Product release date	March 2021	

### Affected products

Model	Affected order codes	Order code changes
FMB122	FMB122***** order codes with base Firmware	No changes

### Change impact

Risk assessment	No risk factors encountered with this change	
Suggested implementation plan	Due to changes in device appearance we strongly recommend to contact your customs agent with our change log information, to avoid any unexpected delays in customs clearance process	

### Acknowledgement of PCN receipt

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above

## 2021.02.08: Base firmware update

We would like to inform you about the base firmware update for FMB122 starting from February 26th, 2021. New production firmware version will be **03.25.18.Rev.05**.

### Change description

Change type	Firmware update	
Detailed description	Key improvements from last production firmware are listed in errata: <a href="https://wiki.teltonika-gps.com/view/FMB122_firmware_errata">https://wiki.teltonika-gps.com/view/FMB122_firmware_errata</a>	
Change reasons	FMB122 base firmware version update	
Product release date	2021 February 26th.	

### Affected products

Model	Affected order codes	Order code changes
FMB122	FMB122***** order codes with base Firmware	Update firmware

### Change impact

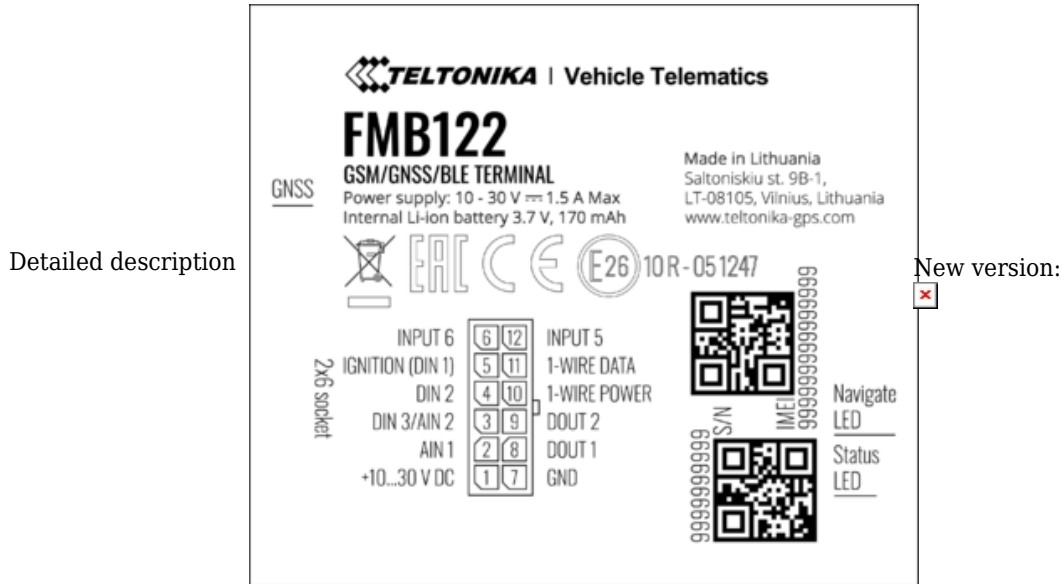

Risk assessment Client's special firmware versions or order codes with special firmware will not be updated to latest base firmware automatically  
 Suggested implementation plan If you are using special firmware version and would like an upgrade to new features of latest base firmware, please contact your Teltonika sales manager.

## 2021.01.01: Top Laser Printing Changes

We would like to inform you, that laser printing of the FMB122 device was updated in the factory in January 2021.

### Change description

Change type External/visual  
 Top laser printing design changed  
 Old version:

Change reasons  
 1. Updated Emark certificate number.  
 2. Added UKCA label.  
 3. Updated Teltonika brand to Teltonika Telematics.

Product release date January 2021

### Affected products

Model	Affected order codes	Order code changes
FMB122	FMB122*****	New casing

### Change impact

Risk assessment No risk factors encountered with this change  
 Suggested implementation plan Due to changes in device appearance we strongly recommend to contact your customs agent with our change log information, to avoid any unexpected delays in customs clearance process

### Acknowledgement of PCN receipt

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above

## 2020.11.24: GNSS antenna changes

We would like to inform you about the GNSS antenna changes for FMB122 starting from late December 2020 - early January 2021.

### Change description

Change type Mechanical part changes

Old version:

New version:

Dimensions - 45.2x35.8x15.1 mm Center frequency - 1575.42 MHz  
 Dimensions - 46x44x13 mm Center frequency - 1575.42 MHz

## Change reasons

According to technical comparison new antenna is better by next parameters: center frequency, bandwidth, consumption. Other parameters are the same. Moreover, the new antenna is thinner, which gives the opportunity to mount it, where it was not possible before and makes installation easier.

## Product release date

Late December 2020 - Early January 2021

### Affected products

Model	Affected order codes	Order code changes
FMB122	FMB122*****order codes	No changes

### Change impact

Risk assessment	No risk factors encountered with this change
Suggested implementation plan	No implementation plan needed

### Acknowledgement of PCN receipt

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above

## 2020.01.22: Base firmware update

We would like to inform you about the base firmware update for FMB122 starting from January 22th, 2020. New production firmware version will be **03.25.15.Rev.01**.

### Change description

Change type	Firmware update
Detailed description	Key improvements from last production firmware are listed in errata: <a href="https://wiki.teltonika-gps.com/view/FMB122_firmware_errata">https://wiki.teltonika-gps.com/view/FMB122_firmware_errata</a> Old version: FMB122 03.25.05.Rev.00 New version: FMB122 03.25.15.Rev.01
Change reasons	FMB122 base firmware version update
Product release date	2020 January 22th.

### Affected products

Model	Affected order codes	Order code changes
FMB122	FMB122***** order codes with base Firmware	Update firmware

### Change impact

Risk assessment	Client's special firmware versions or order codes with special firmware will not be updated to latest base firmware automatically
Suggested implementation plan	If you are using special firmware version and would like an upgrade to new features of latest base firmware, please contact your Teltonika sales manager.

## 2019.12.02: Top Device Marking Changes

We would like to inform you, that tamppography of the FMB122 device was updated to engraving in the factory on the 2nd of December.

### Change description

Change type	External/visual
Detailed description	Device marking changed from tamppography to laser printing. Information provided on module will remain the same Old Version:  New Version: 
Change reasons	To improve manufacturing speed, efficiency and reliability To increase quality, precision and durability of marking.
Product release date	Planned date: 2019 December

### Affected products

Model	Affected order codes	Order code changes
FMB122	FMB122*****	No changes

### Change impact

Risk assessment	No risk factors encountered with this change
Suggested implementation plan	No implementation plan needed

### Acknowledgement of PCN receipt

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above

## 2019.08.14: Different FMB122 GNSS antenna connection

# type

Effective August 2019, FMB122 trackers will be shipped with **different GNSS antenna connection**.

## Change description

Change type	GNSS antenna	
Detailed description	Different GNSS antenna connection type MMCX -> SMA	
Change reasons	Old version:	New version:
Product release date		
	With respect to customer feedback, we decide to return the SMA connectors	
	The new GNSS antenna connection type will be used from the time when the stock will be sold all leftovers.	

## Affected products

Model	Affected order codes	Order code changes
FMB122	FMB122*****	GNSS antenna with SMA connection

## Change impact

Risk assessment	No risk factors encountered with this change
Suggested implementation plan	No implementation plan needed

## Acknowledgement of PCN receipt

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above

# 2019.07.22: new no brand Eco friendly boxes

Effective September 2019, FMB122 trackers with no brand packaging will be shipped with a **new no brand eco-friendly box**.

## Change description

Change type	Packaging	
	Improved and more environmentally friendly packaging box	
	Old single packaging version:	New single packaging version:
		
Detailed description	<b>Dimensions:</b> 165 (W) x 145 (D) x 35 (H)	<b>Dimensions:</b> 175 (W) x 150 (D) x 35 (H)
	Old group packaging version:	New group packaging version:
		
	<b>Dimensions:</b> 355 (W) x 175 (D) x 60 (H)	<b>Dimensions:</b> 355 (W) x 175 (D) x 60 (H)
Change reasons	The new box is better for the environment	
Product release date	Devices with new packaging will be released in manufacturing from September with 2 months of transition period. Over this period devices with white packaging can be delivered as well as devices with the new eco boxes.	

## Affected products

Model	Affected order codes	Order code changes
FMB001, FMB010, FMB100, FMB110, FMB120, FMB122, FMB125, FMB202, FMB204, FMB900, FMB920, FMB964, FMT100, FMB130, MTB100.	FMB001*****, FMB010*****, FMB100*****, FMB110*****, FMB120*****, FMB122*****, FMB125*****, FMB202*****, FMB204*****, FMB900*****, FMB920*****, FMB964*****, FMT100*****, FMB130*****, MTB100*****	No changes

## Change impact

Risk assessment	No risk factors encountered with this change
Suggested implementation plan	Due to the new look of boxes we strongly recommend to update your marketing materials. Because of the new color of the packaging box, if necessary, update your branding materials (stickers, logo layouts).

## Acknowledgement of PCN receipt

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above

## 2019.06.14: Device module information display changes

We would like to inform you, that the information display on device module TM2500 will be updated in the factory from July 2019.

### Change description

Change type	External/visual
Detailed description	Information display on TM2500 module will change from sticker to laser print. Information provided on module will remain the same. Old Version: <input type="checkbox"/> New Version: <input checked="" type="checkbox"/>
Change reasons	Laser printing will increase reliability, speed, and will reduce paper waste.
Product release date	Devices with new module marking will be released in manufacturing from July with 2 months of transition period. Over this period devices with sticker can be delivered as well as devices with laser print.

### Affected products

Model	Affected order codes	Order code changes
FMB001, FMB010, FMB100, FMB110, FMB120, FMB122, FMB125, FMB202, FMB204, FMB900, FMB920, FMB964, FMT100, FMB640, FMB130, MTB100, TMT250, GH5200.	FMB001*****, FMB010*****, FMB100*****, FMB110*****, FMB120*****, FMB122*****, FMB125*****, FMB202*****, FMB204*****, FMB900*****, FMB920*****, FMB964*****, FMT100*****, FMB640*****, TMT250*****, FMB130*****, MTB100*****, GH5200*****	No changes

### Change impact

Risk assessment	The change will not affect clients. All the module characteristics will remain unchanged. The only sticker on module will be changed to laser print. The displayed information will remain the same.
Suggested implementation plan.	Due to changes in device appearance we strongly recommend to contact your customs agent with our change log information, to avoid any unexpected delays in the customs clearance process.

### Acknowledgement of PCN receipt

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above

To download the pdf version of this notification, [click here](#).

## 2019.05.02: new eco friendly box

Effective May 2019 week 20, FMB122 trackers will be packed with a **new eco-friendly box**.

### Change description

Change type	Packaging
Detailed description	Improved and more environmentally friendly packaging box Old version: <input type="checkbox"/> New version: <input checked="" type="checkbox"/>
Change reasons	The new box is better for the environment
Product release date	May 2019, week 20

## 2019.04.10: IMEI/SN display on device Changes

We would like to inform you, that IMEI/SN info display on the FMB122 device will be updated in the factory from June 2019.

### Change description

Change type	External/visual
Detailed description	IMEI/SN info on device display change from barcode to QR Old Version: <input type="checkbox"/> New Version: <input checked="" type="checkbox"/> This change will not affect device packing and logistic lists. It will remain as barcode.

### Detailed description

### Change reasons

QR format will increase reliability and minimize error rate, because of the error correction feature and improved reading in low contrast.

### Product release date

Devices with new QR Code format will be released in manufacturing from June with 2 months of transition period. Over this period devices with barcode can be delivered as well as devices with QR code.

**Affected products**

Model	Affected order codes	Order code changes
FMB122	FMB122*****	No changes

**Change impact**

Risk assessment	Risk assessment for devices management required
Suggested implementation plan	Due to changes in device information display we strongly recommend to check, and prepare your tools to read QR codes.

**Acknowledgement of PCN receipt**

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above

To download the pdf version of this notification, [click here](#).

## 2019.03.01: new eco friendly box

Effective March 2019, FMB122 trackers will be shipped with a **new eco-friendly box**.

**Change description**

Change type	Packaging Improved and more environmentally friendly packaging box	
Detailed description	Old version: <input type="checkbox"/>	New version: <input type="checkbox"/>
Change reasons	The new box is better for the environment	
Product release date	March 2019	

**Affected products**

Model	Affected order codes	Order code changes
FMB122	FMB122*****	No changes

**Change impact**

Risk assessment	No risk factors encountered with this change
Suggested implementation plan	Due to changes in device appearance we strongly recommend to contact your customs agent with our change log information, to avoid any unexpected delays in customs clearance process

**Acknowledgement of PCN receipt**

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above

## 2019.02.08: new FMB122 case design and new GNSS antenna connection

Effective March 2019, FMB122 trackers will be shipped with **new case design and GNSS antenna connection**.

**Change description**

Change type	Case and GNSS antenna New case design and new GNSS antenna connection type SMA -> MMCX	
Detailed description	Old version: <input type="checkbox"/>	New version: <input type="checkbox"/> <b>Note:</b> To properly open a new case please watch this <a href="#">video</a> .
Change reasons	The new FMB122 case is more ergonomic.	
Product release date	March 2019	

**Affected products**

Model	Affected order codes	Order code changes
FMB122	FMB122*****	New casing, GNSS antenna with MMCX connection

**Change impact**

Risk assessment	No risk factors encountered with this change
-----------------	--

Suggested implementation plan Due to changes in device appearance we strongly recommend to contact your customs agent with our change log information, to avoid any unexpected delays in customs clearance process

**Acknowledgement of PCN receipt**

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above

## 2019.02.20: Top Tampography Changes

We would like to inform you, that tampography of the FMB122 device was updated in a factory on the 20th of February.

**Change description**

Change type	External/visual	
	Top tampography design changed	
Detailed description	Old Version: <input type="checkbox"/>	New Version: <input type="checkbox"/>
Change reasons	1. Updated Teltonika address to Saltoniskiu st. 9B-1 2. Added WEEE label. (WEEE - Waste from Electrical and Electronic Equipment)	
Product release date	Updated tampographs will be used from the time when the stock will be sold all leftovers. Planned date: week 10	

**Affected products**

Model	Affected order codes	Order code changes
FMB122	FMB122*****	No changes

**Change impact**

Risk assessment	No risk factors encountered with this change
Suggested implementation plan	Due to changes in device appearance we strongly recommend to contact your customs agent with our change log information, to avoid any unexpected delays in customs clearance process

**Acknowledgement of PCN receipt**

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above
