FMC225 Product Change Notifications

<u>Main Page</u> > <u>Professional Trackers</u> > <u>FMC225</u> > **FMC225 Product Change Notifications**

Product change notifications (PCN) is the way of informing customers of upcoming changes related to Teltonika products. This includes outward appearance adjustments, hardware improvements, firmware changes, changes to package contents, etc. This page stores information regarding changes to the FMC225 tracking device. Below you will find a list of both upcoming and already implemented changes sorted from newest to oldest (top to bottom).

2024.05.13: Base firmware update

We would like to inform you about the base firmware update for FMC225 starting from June, 2024. New production firmware version will be **03.29.00.Rev.18**

Change description

Change type Firmware update

Key improvements from last production firmware are listed in errata: FMC225 firmware errata

Detailed description Old version. New version: 03.29.00.Rev.18 03.29.00.Rev.13

Change reasons FMC225 base firmware version update

Product release date 2024 June

Affected products

Affected order codes Model Order code changes FMC225 Order codes with base Firmware New firmware version

Change impact

Client's special firmware versions or order codes with special firmware will not be updated to latest base firmware automatically. Risk assessment

During the transition period clients might receive devices with previous Firmware version used in manufacture.

Suggested implementation plan If you are using special firmware version and would like an upgrade to new features of latest base firmware, please contact your Teltonika sales manager.

2024.01.22: Modified battery placement within the casing

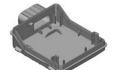

We would like to inform you that starting from January 2024, there will be a small change in the FMC225 devices casing. We have adjusted the battery placement and increased PCB guide height within casing. This modification was essential to enhance our manufacturing process.

Change description

Change type Optimizing robotic battery placement process within casing

The modifications will not impact the place of the battery or PCB within the FMC225 device.

New Version:

1. Modified battery placement within the casing.

2. PCB guide height increased for easier assembly.

3. Improved manufacturing process.
