

TachoSync User management

[TachoSync](#) > TachoSync User management

Overview

In TachoSync you can invite users to join the platform under your company or a subcompany that you have created. If you wish to invite user, please follow these steps:

1. Press *Invite user* button on the right top corner of the *Users* page.

2. In the new table select company, email, role and press *Invite*.

After these steps user will get all the necessary information via email.
