- [1 How to insert Micro-SIM card](#)

How to insert Micro-SIM card

1. Gently remove FMX2YX **cover** using **plastic pry tool** from both sides.
2. Disassemble the device, remove both sides from the PCB
3. Insert **Micro-SIM** card as shown with **PIN request disabled** or read [Security info](#) how to enter it later in Configurator. Make sure that Micro-SIM card **cut-off corner** is pointing forward to slot. **SIM slot 1** is closer to PCB, **SIM slot 2** is the upper one.
4. Connect the battery
5. Place the battery in the housing
6. Attach device **cover** back.

Micro-SIM card insertion/removal must be performed when device is powered off -

- external voltage and internal battery disconnected. Otherwise Micro-SIM card might be damaged or device will not detect it.**
