

# DashCam Product Change Notifications

[Teltonika DashCam](#) > DashCam Product Change Notifications

**Product change notifications (PCN)** is the way of informing customers of upcoming changes related to Teltonika products. This includes outward appearance adjustments, hardware improvements, firmware changes, changes to package contents, etc. **This page stores information regarding changes to the DashCam video/photo recording device and FMX125/FMX225 tracking device since they are closely developed to work with each other.** Below you will find a list of both upcoming and already implemented changes sorted from newest to oldest (top to bottom).

## 2023.06.05: FMX125 Initial firmware release

We would like to inform you about the new base firmware release for FMX125 starting from 05th of Jun 2023. New tracking device production firmware version will be 03.27.13.Rev.662.

<b>Change description</b>		
Change type	Firmware update	
Detailed description	Key improvements from last production firmware are listed in errata: <a href="https://wiki.teltonika-gps.com/view/DashCam_Firmware_errata">https://wiki.teltonika-gps.com/view/DashCam_Firmware_errata</a>	
	Old version: N/A New version: FMX125 03.27.13.Rev.662	
Change reasons	FMX125 base firmware version update	
Product release date	2023 Jun	
<b>Affected products</b>		
Model	Affected order codes	Order code changes
FMX125	FMX125***** order codes with base Firmware	New firmware release
<b>Change impact</b>		
Risk assessment	Client's special firmware versions or order codes with special firmware will not be updated to latest base firmware automatically. During the transition period clients might receive devices with previous Firmware version used in manufacture.	
Suggested implementation plan	If you are using special firmware version and would like an upgrade to new features of latest base firmware, please contact your Teltonika sales manager.	

## 2022.05.20: DualCam firmware initial release

We would like to inform you about the base firmware update for DualCam starting from 20th of May 2022. New production firmware version will be V2.2.3.

<b>Change description</b>
