# ETacho

eTacho tachograph data management system is fully compatible with Teltonika Fleet Management (FM) devices.

☐

## Contents

## Description

eTacho (TLV Ltd) has been providing reliable and trustworthy solutions for fleet management worldwide since 2006. The main goal for eTacho is to help distributors scale up their GPS tracking business and increase sales by offering additional Tachograph-related functionality.

eTacho can be used as a standalone solution next to your fleet management platform or it can be integrated with it.

eTacho offers various business models like whitelabel solution, franchise or a simple distributor mode.

## Features

- Simple User Interface
- Company card authorization through robust multi card reader or simple PC reader
- Tachograph data (DDD) download scheduling
- Tachograph data (DDD) archive
- Download history and log
- Online tacho reading and driver violations
- Automatic per-diem calculations
- Cloud-Hosted
- Versatility of integration (API, Kafka, FTP, custom)

## Supported devices

eTacho supports all the main Teltonika Telematics tracking devices. For any specific queries, please

address the service provider directly at website.web.com/email@domain.co.
