FM6300 System info

[Main Page](Main_Page) > [EOL Products](EOL_Products) > [FM6300](FM6300) > [FM6300 Configuration](FM6300_Configuration) > **FM6300 System info**

System settings have 5 configurable parameters:

- Sleep mode - where user can turn GPS sleep/deep sleep on or off;
- Sleep timeout - timer which starts after every sleep condition is met and will end up with device going to sleep mode;
- Ignition Source sets ignition triggered functionalities to be triggered by:
  - Power Voltage (if voltage is between High Voltage Level and Low Voltage Level the ignition is considered to be turned on);
  - Digital Input 1;
  - Digital Input 2;
  - Digital Input 3;
  - Digital Input 4;
  - Movement (if accelerometer/movement sensor detects movement then ignition is on, if movement stops – ignition is off).
