

FMB125 Product Change Notifications

[Main Page](#) > [Professional Trackers](#) > [FMB125](#) > **FMB125 Product Change Notifications**

Product change notifications (PCN) is the way of informing customers of upcoming changes related to Teltonika products. This includes outward appearance adjustments, hardware improvements, firmware changes, changes to package contents, etc. This page stores information regarding changes to the FMB125 tracking device. Below you will find a list of both upcoming and already implemented changes sorted from newest to oldest (top to bottom).

2024.08.07: Base firmware update

We would like to inform you about the base firmware update for FMB125 starting from August, 2024. New production firmware version will be **03.29.00.Rev.21**

Change description

Change type	Firmware update
Detailed description	Key improvements from last production firmware are listed in errata: FMB125 firmware errata
Change reasons	Old version: 03.29.00.Rev.18 New version: 03.29.00.Rev.21
Product release date	FMB125 base firmware version update 2024 August
Affected products	

Model	Affected order codes	Order code changes
FMB125	Order codes with base Firmware	New firmware version
Change impact		
Risk assessment	Client's special firmware versions or order codes with special firmware will not be updated to latest base firmware automatically. During the transition period clients might receive devices with previous Firmware version used in manufacture.	
Suggested implementation plan	If you are using special firmware version and would like an upgrade to new features of latest base firmware, please contact your Teltonika sales manager.	

2024.05.13: Base firmware update

We would like to inform you about the base firmware update for FMB125 starting from June, 2024. New production firmware version will be **03.29.00.Rev.18**

Change description

Change type	Firmware update	
	Key improvements from last production firmware are listed in errata: FMB125 firmware errata	
Detailed description	Old version: 03.29.00.Rev.13	New version: 03.29.00.Rev.18
Change reasons	FMB125 base firmware version update	
Product release date	2024 June	

Affected products

Model	Affected order codes	Order code changes
FMB125	Order codes with base Firmware	New firmware version

Change impact

Risk assessment	Client's special firmware versions or order codes with special firmware will not be updated to latest base firmware automatically. During the transition period clients might receive devices with previous Firmware version used in manufacture.	
Suggested implementation plan	If you are using special firmware version and would like an upgrade to new features of latest base firmware, please contact your Teltonika sales manager.	

2023.03.01: GNSS antenna changes

We would like to update you regarding the changes in GNSS antenna for FMB125, which will now take effect in March 2023. From March 2023 to August 2023, the latest version of GNSS antennas will be provided, and after August 2023, the older version of antennas will be supplied.

Change description

Change type	Internal	
	Mechanical part changes	
Detailed description	Old version: ⊗ Dimensions - 46x44x13 mm Center frequency - 1575.42 MHz, 1602 MHz Bandwidth - 35 MHz VSWR on bandwidth - <1.9 GAIN - 3 dB LNA minimum gain - 26.5 dB LNA maximum gain - 29.5 dB Consumption - 9 mA	New version: ⊗ Dimensions - 45.2x35.8x15.1 mm Center frequency - 1575.42 MHz, 1602 MHz Bandwidth - 10 MHz VSWR on bandwidth - <1.5 GAIN - 2 dB LNA minimum gain - 26 dB LNA maximum gain - 30 dB Consumption - 11 mA
Change reasons	Reaction to antenna market volatility.	
Product release date	March, 2023	

Affected products

Model	Affected order codes	Order code changes
FMB125	FMB125*****order codes	No changes

Change impact

Risk assessment	Up until August 2023, the latest model of GNSS antennas will be provided, after which point the older version of antennas will be supplied.	
Suggested implementation plan	No implementation plan needed.	

2023.02.02: Changes in side frame for the battery placement

We would like to inform you that the side frame for the battery placement is included, helping to determine the exact location of the battery. Also, minor design changes are made to improve both case production and case assembly. These changes affect FMB110, FMB120, FMB122, FMB125, FMC125, FMM125, FMB130, FMC130, FMM130, FMB140, FMB150, FMC150, and FMM150 devices. The updates in the factory are being implemented in February, 2023.

Change description

Change type	Internal	
Detailed description	The side frame for the battery placement is included, helping to determine the exact location of the battery. Also, minor design changes are made to improve both case production and case assembly. These changes affect FMB110, FMB120, FMB122, FMB125, FMC125, FMM125, FMB130, FMC130, FMM130, FMB140, FMB150, FMC150, and FMM150 devices.	
	Old Version:	New Version:
	  	  
Change reasons	The battery placement is improved with a side frame, helping to determine the exact location of the battery. Minor design changes are made for case production and case assembly. These changes affect FMB110, FMB120, FMB122, FMB125, FMC125, FMM125, FMB130, FMC130, FMM130, FMB140, FMB150, FMC150, and FMM150 devices.	
Product release date	February, 2023	
Affected products		
Model	Affected order codes	Order code changes
FMB110, FMB120, FMB122, FMB125, FMC125, FMM125, FMB130, FMC130, FMM130, FMB140, FMB150, FMC150, FMM150	FMB110, FMB120, FMB122, FMB125, FMC125, FMM125, FMB130, FMC130, FMM130, FMB140, FMB150, FMC150, FMM150 all codes	Updated the battery placement with the side frame as well as minor design changes for case production and assembly
Change impact		
Risk assessment	During the transition period clients might receive devices with old case design used in manufacture	
Suggested implementation plan	Due to changes in device appearance we strongly recommend to contact your customs agent with our change log information, to avoid any unexpected delays in customs clearance process.	
Acknowledgement of PCN receipt		
If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has tactically accepted and can implement the change as indicated above.		

2023.01.01: SMA soldering changes

We would like to inform you that Antenna connectors (SMA SMD type) in FMB125 devices will be soldered from both sides of PCB starting from January 2023.

Change description

Change type	Internal	
Detailed description	Old version:	New version:
		
Change reasons	In order to increase the structural rigidity and unify the manufacturing process of Teltonika IoT Group devices, SMA connector will be soldered on the top side of PCB (same as before) and on the bottom side of PCB (performed additionally).	
Product release date	January, 2023	
Affected products		
Model	Affected order codes	Order code changes
FMB125	FMB125*****	SMA soldering changes
Change impact		
Risk assessment	Due to THT assembly process, some devices might have an excess amount of soldering on the SMA connector. This does not affect GSM/GNSS antenna characteristics and does not interfere with device case assembly, therefore, device functionality remains unchanged. 	
Suggested implementation plan	No implementation plan needed	
Acknowledgement of PCN receipt		
If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above.		

2022.08.01: Base firmware update

We would like to inform you about the base firmware update for FMB125 starting from August 1st, 2022. New production firmware version will be 03.27.13.Rev.03

Change description		
Change type	Firmware update	
Detailed description	Key improvements from last production firmware are listed in errata: https://wiki.teltonika-gps.com/view/FMB125_firmware_errata	
	Old version:	New version:
	FMB125 03.27.07.Rev.00	FMB125 03.27.13.Rev.03
Change reasons	FMB125 base firmware version update	
Product release date	2022 August	
Affected products		

Model	Affected order codes	Order code changes
FMB125	FMB125***** order codes with base Firmware	Update firmware
Change impact		
Risk assessment	Client's special firmware versions or order codes with special firmware will not be updated to latest base firmware automatically. During the transition period clients might receive devices with previous Firmware version used in manufacture.	
Suggested implementation plan	If you are using special firmware version and would like an upgrade to new features of latest base firmware, please contact your Teltonika sales manager.	

2021.08.13: Base firmware update

We would like to inform you about the base firmware update for FMB125 starting from August 13th, 2021. New production firmware version will be 03.27.07.Rev.00

Change description		
Change type	Firmware update	
Detailed description	Key improvements from last production firmware are listed in errata: https://wiki.teltonika-gps.com/view/FMB125_firmware_errata	
	Old version: FMB125 03.25.18.Rev.08	New version: FMB125 03.27.07.Rev.00
Change reasons	FMB125 base firmware version update	
Product release date	2021 August	
Affected products		
Model	Affected order codes	Order code changes
FMB125	FMB125***** order codes with base Firmware	Update firmware

2021.05.17: Base firmware update

We would like to inform you about the base firmware update for FMB125 starting from May 17th, 2021. New production firmware version will be **03.25.18.Rev.08**.

Change description		
Change type	Firmware update	
Detailed description	Key improvements from last production firmware are listed in errata: https://wiki.teltonika-gps.com/view/FMB125_firmware_errata	
	Old version: 03.25.18.Rev.05	New version: 03.25.18.Rev.08
Change reasons	FMB125 base firmware version update	
Product release date	2021 May.	
Affected products		
Model	Affected order codes	Order code changes
FMB125	FMB125***** order codes with base Firmware	Update firmware
Change impact		
Risk assessment	Client's special firmware versions or order codes with special firmware will not be updated to latest base firmware automatically. During the transition period clients might receive devices with previous Firmware version used in manufacture.	
Suggested implementation plan	If you are using special firmware version and would like an upgrade to new features of latest base firmware, please contact your Teltonika sales manager.	

2021.02.08: Bluetooth® Improvement

We would like to inform you, that Bluetooth® performance for the FMB125 device will be updated in the factory from March 2021.

Change description		
Change type	Internal	
Detailed description	Bluetooth® antennas are improved for FMB110, FMB120, FMB122, and FMB125 devices ensuring better signal strength. The efficiency of Bluetooth® antennas is considerably increased when receiving or transferring data.	
Change reasons	Following the changes, the capabilities of our devices will be greatly improved to provide better performance when Bluetooth® signal is obstructed or longer distance coverage is required	
Product release date	March 2021	
Affected products		
Model	Affected order codes	Order code changes
FMB125	FMB125***** order codes with base Firmware	No changes
Change impact		
Risk assessment	No risk factors encountered with this change	

Suggested implementation plan

Due to changes in device appearance we strongly recommend to contact your customs agent with our change log information, to avoid any unexpected delays in customs clearance process

Acknowledgement of PCN receipt

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above

2021.02.08: Base firmware update

We would like to inform you about the base firmware update for FMB125 starting from February 26th, 2021. New production firmware version will be **03.25.18.Rev.05**.

Change description

Change type	Firmware update	
Detailed description	Key improvements from last production firmware are listed in errata: https://wiki.teltonika-gps.com/view/FMB125_firmware_errata	
Change reasons	Old version: FMB125 03.25.15.Rev.32	New version: FMB125 03.25.18.Rev.05
Product release date	FMB125 base firmware version update 2021 February 26th.	
Affected products		
Model	Affected order codes	Order code changes
FMB125	FMB125***** order codes with base Firmware	Update firmware
Change impact		
Risk assessment	Client's special firmware versions or order codes with special firmware will not be updated to latest base firmware automatically	
Suggested implementation plan	If you are using special firmware version and would like an upgrade to new features of latest base firmware, please contact your Teltonika sales manager.	

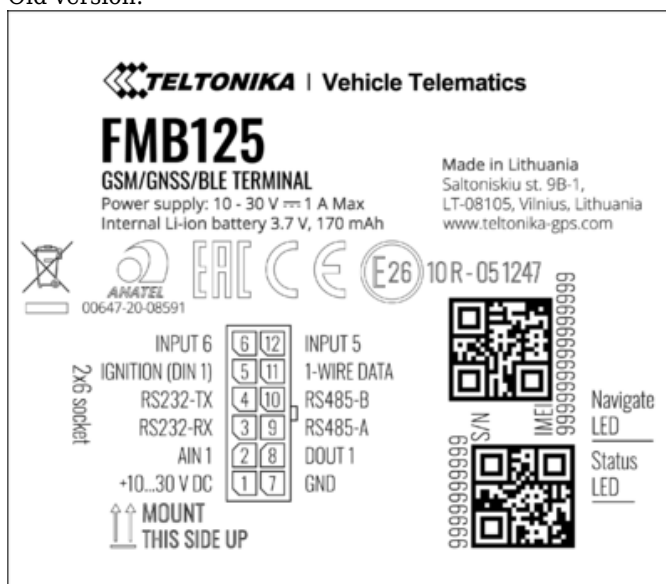

2021.01.01: Top Laser Printing Changes

We would like to inform you, that laser printing of the FMB125 device was updated in the factory in January 2021.

Change description

Change type	External/visual
	Top laser printing design changed
	Old version:

Detailed description

New version:

Change reasons	1. Updated Emark certificate number. 2. Added UKCA label. 3. Updated Teltonika brand to Teltonika Telematics.
Product release date	January 2021

Affected products

Model	Affected order codes	Order code changes
FMB125	FMB125*****	New casing

Change impact

Risk assessment	No risk factors encountered with this change
Suggested implementation plan	Due to changes in device appearance we strongly recommend to contact your customs agent with our change log information, to avoid any unexpected delays in customs clearance process

Acknowledgement of PCN receipt

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above

2020.11.24: GNSS antenna changes

We would like to inform you about the GNSS antenna changes for FMB125 starting from late December 2020 - early January 2021.

Change description

Change type	Mechanical part changes	
	Old version: <input type="checkbox"/>	New version: <input type="checkbox"/>
Detailed description	Dimensions - 45.2x35.8x15.1 mm Center frequency - 1575.42 MHz, 1600 MHz Bandwidth - 10 MHz VSWR on bandwidth - <1.5 GAIN - 3 dB LNA minimum gain - 26 dB LNA maximum gain - 30 dB Consumption - 11 mA	Dimensions - 46x44x13 mm Center frequency - 1575.42 MHz, 1602 MHz Bandwidth - 35 MHz VSWR on bandwidth - <1.9 GAIN - 3 dB LNA minimum gain - 26.5 dB LNA maximum gain - 29.5 dB Consumption - 9 mA
Change reasons	According to technical comparison new antenna is better by next parameters: center frequency, bandwidth, consumption. Other parameters are the same. Moreover, the new antenna is thinner, which gives the opportunity to mount it, where it was not possible before and makes installation easier.	
Product release date	Late December 2020 - Early January 2021	

Affected products

Model	Affected order codes	Order code changes
FMB125	FMB125*****order codes	No changes

Change impact

Risk assessment	No risk factors encountered with this change
Suggested implementation plan	No implementation plan needed

Acknowledgement of PCN receipt

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above

2020.01.22: Base firmware update

We would like to inform you about the base firmware update for FMB125 starting from January 22th, 2020. New production firmware version will be **03.25.15.Rev.01**.

Change description

Change type	Firmware update
-------------	-----------------

Detailed description	Key improvements from last production firmware are listed in errata: https://wiki.teltonika-gps.com/view/FMB125_firmware_errata	
	Old version: FMB125 03.25.05.Rev.00	New version: FMB125 03.25.15.Rev.01
Change reasons	FMB125 base firmware version update	
Product release date	2020 January 22th.	
Affected products		
Model	Affected order codes	Order code changes
FMB125	FMB125***** order codes with base Firmware	Update firmware
Change impact		
Risk assessment	Client's special firmware versions or order codes with special firmware will not be updated to latest base firmware automatically	
Suggested implementation plan	If you are using special firmware version and would like an upgrade to new features of latest base firmware, please contact your Teltonika sales manager.	

2019.12.02: Top Device Marking Changes

We would like to inform you, that tamppography of the FMB125 device was updated to engraving in the factory on the 2nd of December.

Change description		
Change type	External/visual	
Detailed description	Device marking changed from tamppography to laser printing. Information provided on module will remain the same	
	Old Version: 	New Version: 
Change reasons	To improve manufacturing speed, efficiency and reliability To increase quality, precision and durability of marking.	
Product release date	Planned date: 2019 December	
Affected products		
Model	Affected order codes	Order code changes
FMB125	FMB125*****	No changes
Change impact		
Risk assessment	No risk factors encountered with this change	
Suggested implementation plan	No implementation plan needed	
Acknowledgement of PCN receipt		
If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above		

2019.08.14: Different FMB125 GNSS antenna connection type

Effective August 2019, FMB125 trackers will be shipped with **different GNSS antenna connection**.

Change description		
Change type	GNSS antenna	
Detailed description	Different GNSS antenna connection type MMCX -> SMA	
	Old version: 	New version: 
Change reasons	With respect to customer feedback, we decide to return the SMA connectors	
Product release date	The new GNSS antenna connection type will be used from the time when the stock will be sold all leftovers.	
Affected products		
Model	Affected order codes	Order code changes
FMB125	FMB125*****	GNSS antenna with SMA connection
Change impact		
Risk assessment	No risk factors encountered with this change	

Suggested implementation plan No implementation plan needed

Acknowledgement of PCN receipt

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above

2019.07.22: new no brand Eco friendly boxes

Effective September 2019, FMB125 trackers with no brand packaging will be shipped with a **new no brand eco-friendly box**.

Change description

Change type	Packaging Improved and more environmentally friendly packaging box	
Detailed description	Old single packaging version: <input type="checkbox"/> Dimensions: 165 (W) x 145 (D) x 35 (H) Old group packaging version: <input type="checkbox"/> Dimensions: 355 (W) x 175 (D) x 60 (H) The new box is better for the environment	New single packaging version: <input type="checkbox"/> Dimensions: 175 (W) x 150 (D) x 35 (H) New group packaging version: <input type="checkbox"/> Dimensions: 355 (W) x 175 (D) x 60 (H)
Change reasons	Devices with new packaging will be released in manufacturing from September with 2 months of transition period. Over this period devices with white packaging can be delivered as well as devices with the new eco boxes.	
Product release date		

Affected products

Model	Affected order codes	Order code changes
FMB001, FMB010, FMB100, FMB110, FMB120, FMB122, FMB125, FMB202, FMB204, FMB900, FMB920, FMB964, FMT100, FMB130, MTB100.	FMB001*****, FMB010*****, FMB100*****, FMB110*****, FMB120*****, FMB122*****, FMB125*****, FMB202*****, FMB204*****, FMB900*****, FMB920*****, FMB964*****, FMT100*****, FMB130*****, MTB100*****	No changes

Change impact

Risk assessment	No risk factors encountered with this change
Suggested implementation plan	Due to the new look of boxes we strongly recommend to update your marketing materials. Because of the new color of the packaging box, if necessary, update your branding materials (stickers, logo layouts).

Acknowledgement of PCN receipt

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above

2019.06.14: Device module information display changes

We would like to inform you, that the information display on device module TM2500 will be updated in the factory from July 2019.

Change description

Change type	External/visual
Detailed description	Information display on TM2500 module will change from sticker to laser print. Information provided on module will remain the same. Old Version: <input type="checkbox"/> New Version: <input type="checkbox"/>
Change reasons	Laser printing will increase reliability, speed, and will reduce paper waste.
Product release date	Devices with new module marking will be released in manufacturing from July with 2 months of transition period. Over this period devices with sticker can be delivered as well as devices with laser print.

Affected products

Model	Affected order codes	Order code changes
FMB001, FMB010, FMB100, FMB110, FMB120, FMB122, FMB125, FMB202, FMB204, FMB900, FMB920, FMB964, FMT100, FMB640, FMB130, MTB100, TMT250, GH5200.	FMB001*****, FMB010*****, FMB100*****, FMB110*****, FMB120*****, FMB122*****, FMB125*****, FMB202*****, FMB204*****, FMB900*****, FMB920*****, FMB964*****, FMT100*****, FMB640*****, TMT250*****, FMB130*****, MTB100*****, GH5200*****	No changes

Change impact

Risk assessment	The change will not affect clients. All the module characteristics will remain unchanged. The only sticker on module will be changed to laser print. The displayed information will remain the same.
Suggested implementation plan	Due to changes in device appearance we strongly recommend to contact your customs agent with our change log information, to avoid any unexpected delays in the customs clearance process.

Acknowledgement of PCN receipt

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above

2019.05.02: new eco friendly box

Effective May 2019 week 20, FMB125 trackers will be packed with a **new eco-friendly box**.

Change description

Change type	Packaging	
	Improved and more environmentally friendly packaging box	
Detailed description	Old version: <input type="checkbox"/>	New version: <input type="checkbox"/>
Change reasons	The new box is better for the environment	
Product release date	May 2019, week 20	

2019.04.10: IMEI/SN display on device Changes

We would like to inform you, that IMEI/SN info display on the FMB125 device will be updated in the factory from June 2019.

Change description

Change type	External/visual	
	IMEI/SN info on device display change from barcode to QR	
Detailed description	Old Version: <input type="checkbox"/>	New Version: <input type="checkbox"/>
Change reasons	This change will not affect device packing and logistic lists. It will remain as barcode.	

Detailed description

Change reasons	QR format will increase reliability and minimize error rate, because of the error correction feature and improved reading in low contrast.
Product release date	Devices with new QR Code format will be released in manufacturing from June with 2 months of transition period. Over this period devices with barcode can be delivered as well as devices with QR code.

Affected products

Model	Affected order codes	Order code changes
FMB125	FMB125*****	No changes

Change impact

Risk assessment	Risk assessment for devices management required
Suggested implementation plan	Due to changes in device information display we strongly recommend to check, and prepare your tools to read QR codes.

Acknowledgement of PCN receipt

If no feedback is received within two weeks after the issue date of this notification - Teltonika may accept that this change has been tacitly accepted and can implement the change as indicated above
