- [1 Casing](#)
- [2 Battery Placement](#)
- [3 GNSS Antenna](#)
- [4 LED lights](#)

Teltonika FMB910 is a low-cost version of the FMB920 tracker. The main differences are the overall size of the device, different GNSS antenna design, and some components being bigger in size, thus the change in dimensions.

Casing

✖

Battery Placement

Internal battery of FMB910 is placed bellow the PCB

✖

GNSS Antenna

FMB910 has new Teltonika Telematics metal GNSS antenna as alternative to FMB920 ceramic GNSS antenna

✖

LED lights

FMB910 has one status LED. LED behavior is described in [FMB910 LED Status](#) ✖
