FMC230 Product Change Notifications

Main Page > Advanced Trackers > FMC230 > FMC230 Product Change Notifications

Product change notifications (**PCN**) is the way of informing customers of upcoming changes related to Teltonika products. This includes outward appearance adjustments, hardware improvements, firmware changes, changes to package contents, etc. This page stores information regarding changes to the FMC230 tracking device. Below you will find a list of both upcoming and already implemented changes sorted from newest to oldest (top to bottom).

2024.01.22: Modified battery placement within the casing

We would like to inform you that starting from January 2024, there will be a small change in the FMC230 devices casing. We have adjusted the battery placement and increased PCB guide height within casing. This modification was essential to enhance our manufacturing process.

Change description

Change type

Optimizing robotic battery placement process within casing

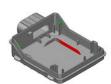

The modifications will not impact the place of the battery or PCB within the FMC230 device.

New Version:

Detailed description

- Change reasons
- 1. Modified battery placement within the casing.
- PCB guide height increased for easier assembly.
 Improved manufacturing process.
