## Contents

- [1 Files section](#)
- [2 Actions](#)

This chapter is an overview of **FILES** menu.

## Files section

This section displays files that have been uploaded to FOTA WEB by a user. Two possible file types: Firmware and Configuration.

<b>FIELD NAME</b>	<b>VALUE</b>	<b>DESCRIPTION</b>
<b>FILE NAME</b>	String: file name	Exact filename of uploaded file. In case of configuration download <b>from</b> device - it includes IMEI + Unix timestamp.
<b>TYPE</b>	Firmware   configuration	Shows whether file is firmware or configuration.
<b>COMPANY</b>	String: Company name	Shows to which company this file is assigned. If a file is assigned to a <b>child</b> level company - then only that particular company and its root level company can utilize this file.
<b>DESCRIPTION</b>	String: description; default: N/A	Description shows user-defined explanation for this file. In case of configuration download from device - it shows "From device".
<b>UPLOADED AT</b>	String: date and time	It shows when the file was uploaded to the FOTA WEB. Date/Time is adjusted by the browser according to the time of local PC.

## Actions

**ACTIONS** button allows to add a new file or remove (delete) already uploaded ones.

<b>FIELD NAME</b>	<b>ACTIONS</b>	<b>DESCRIPTION</b>
-------------------	----------------	--------------------

<b>Add new file</b>	Companies   Firmware   Configuration	<b>Add new file</b> menu allows to select a <b>Company</b> and assign Firmware and Configuration files to it. It is possible to upload multiple Firmware files and Multiple configurations at the same time.
<b>Remove</b>	-	Removes selected file(s) from FOTA WEB. Once file is removed it shall not appear in <b>Devices -&gt; Actions -&gt; Assign</b> options.
<b>COMPANY</b>	String: Company name	Shows to which company this file is assigned. If a file is assigned to a <b>child</b> level company - then only that particular company and its root level company can utilize this file.
<b>DESCRIPTION</b>	String: description; default: N/A	Description shows user-defined explanation for this file. In case of configuration download <b>from</b> device - it shows "From device".
<b>UPLOADED AT</b>	String: date and time	It shows when the file was uploaded to the FOTA WEB. Date/time is adjusted by the browser according to the time of local PC.

**NOTE:** configuration files that were downloaded via **Devices -> Actions -> Download from device -> Configuration file** shall appear in **FILES** tab.

Configuration files can be **downloaded** to your PC from **FILES** menu. Configuration files can be opened only with FM configurator.
