Description

Mapon offers state-of-the-art fleet management and asset tracking platform for more than 13 years now. During this time, the company team has earned the trust of more than 8000 clients worldwide, broadened the Mapon partner network and expended the business from headquarters in Riga to three more offices in Tallinn, Helsinki, and Barcelona. Moreover, the company has a growing service network to ensure our clients have a fast and convenient service available even when they're drivers are on the road.

Mapon's solutions are designed for all commercial fleets, regardless of their size. Clients from transport and logistics, construction, agriculture, passenger transportation, and delivery business have chosen the company services, thus improving their fleet management processes. The company is proud of its software and solutions that are designed based on the clients' needs and requirements and is constantly working to offer the best possible solutions and services to everyone who has put their trust in Mapon.
