TMT250

что вводить в поля configurator при первом включении Teltonika TMT250

Hello,

Please read [Configuration section](#) at TMT250 [First start](#) page.

Do not see a configurator for FM36M1

The link appears for FMB Series.

I download that version, but do not see option to create a configuration for FM36M1.

What configurator should I use?

Thank You, Mike Timmons Minnesota, U.S.

Hello,

You can find FM36M1 configurator [here](#)
