

# Template:FMB0 Electrical characteristics

## Electrical characteristics

| Characteristic description                           | Value |      |                   | Unit |
|------------------------------------------------------|-------|------|-------------------|------|
|                                                      | Min.  | Typ. | Max.              |      |
| Supply Voltage:                                      |       |      |                   |      |
| Supply Voltage<br>(Recommended Operating Conditions) | +10   |      | +30               | V    |
| Input voltage<br>(Recommended Operating Conditions)  | 0     |      | Supply<br>voltage | V    |

## Absolute maximum ratings

| Characteristic description                   | Value |      |      | Unit |
|----------------------------------------------|-------|------|------|------|
|                                              | Min.  | Typ. | Max. |      |
| Supply Voltage<br>(Absolute Maximum Ratings) | -32   |      | +32  | V    |
