Deleting vehicles

Select unnecessary vehicles and press the **Delete Selected Items** button visible in **Figure below**. After accepting confirmation message - vehicles will be deleted.

Creating schedule group

Select vehicles and press **Create Schedules For Selected Items** button for creating schedule group shown in **Figure below**.

Creating schedule for selected vehicle

To create a schedule for the selected vehicle, Press on schedule count shown in **Figure below**:

In a pop up window shown in **Figure below** select **Add New Schedule**.

Importing vehicle data from *.CSV file

If you have more than one object, you can import all of them from the *.csv file.

Press **Import vehicle data from *.CSV file** shown in **Figure below**:

To create a list of vehicles, enter all vehicle data in a text editor (usually *Notepad*) as shown:
ObjectName;IMEI;+GsmNumber;Apn;ApnUsername;ApnPassword;SmsUsername;SmsPassword;

If there are no APN and SMS login or password columns, leave at the end of line semicolons:
ObjectName;IMEI;+GsmNumber;;;

Save this as a CSV file by writing .csv at the end of the file name (for example, *Vehicles list.csv*).
